Summary

As a recent software engineering graduate, I bring a fresh perspective and a strong enthusiasm for learning and innovation. My academic projects and internships have equipped me with a comprehensive skill set in web development, mobile app development, and database management. I am proficient in several programming languages, including JavaScript, Python, and Java, and have hands-on experience with version control systems like Git. I am eager to join a collaborative team where I can apply my knowledge and grow as a professional.
